The "Fluency Illusion"

High Fluency, Zero Readiness

Even N1-fluent residents panic when dealing with municipal or clinical phone calls.

- ⚠ **Vocabulary Minefields:** Specialized terms like *Gensen Chōshū* or *Shoshin* never appear in daily conversation.
- 🗣 **Rapid & Formal Keigo:** Real officials speak fast with complex honorifics that standard language apps ignore.

Zero Pause Ability: Unlike in-person visits, you can't point at papers or pause a live bureaucrat to check a dictionary.

Practice Before You Dial

1. Ground Document

Upload a photo of your notice or describe the issue. TagTeam identifies key parameters and official requirements before you start.

2. 3D Avatar Call

Rehearse with a realistic receptionist avatar in natural-speed Japanese. Practice answering key questions in a safe environment.

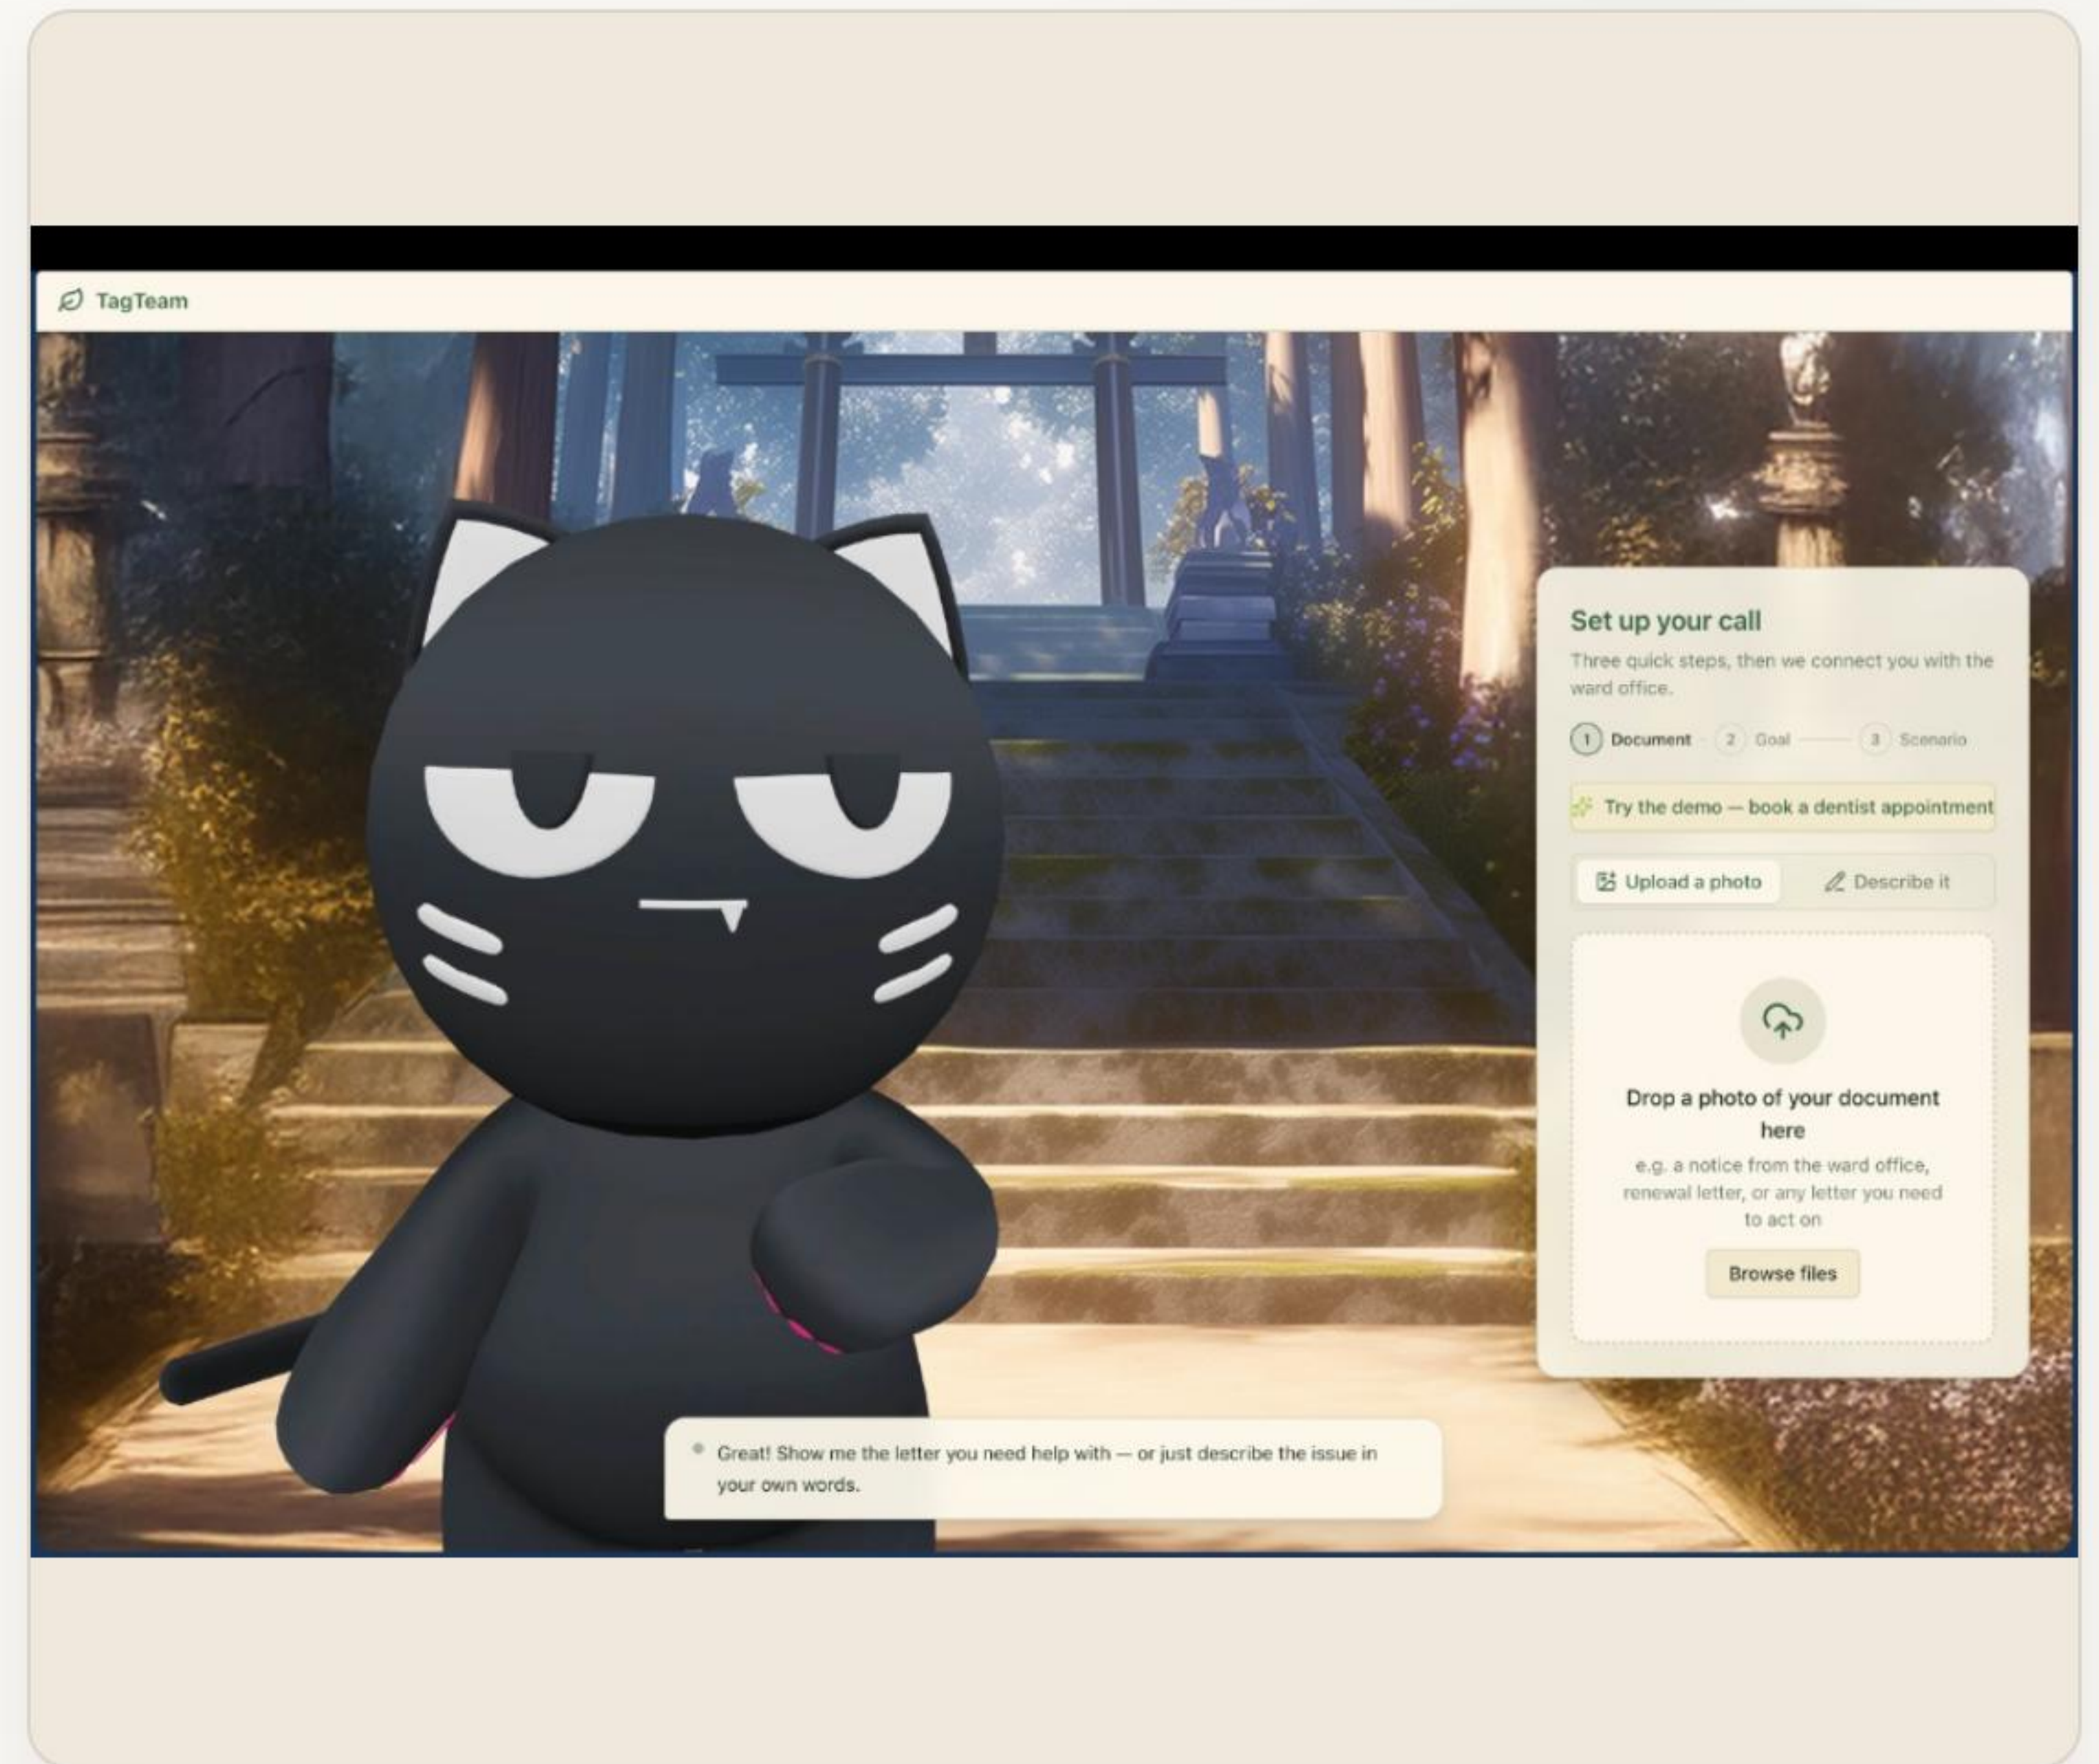

3. Real-Time Co-Pilot

Features enlarged Kanji overlays, instant tap-help hints, and turn-boundary pausing to eliminate call panic completely.

End-to-End User Journey

- 1 **Ground Notice:** Drop a photo of your ward letter or pick a demo scenario (e.g., booking a dentist).
- 2 **Live Research:** Auto-pulls clinic/office facts via SearXNG & Firecrawl so practice mirrors reality.
- 3 **Practice Call:** The avatar tests whether you have your My Number card, preferred dates, and first-visit status.
- 4 **Cheat Sheet:** Generates a tailored reference card with if-then phrases for the actual call.

In-Call Safety Co-Pilot

- 👁️ **Dynamic Kanji Overlay:** Spoken technical terms display at 5x size with Kanji + Furigana + English in real-time.
- ⏸️ **Hold & Explain:** Freezes call at the turn boundary while the avatar breaks down difficult terms verbally.
- 💡 **Tap Help:** One-tap visual hints keep the conversation moving smoothly without halting flow.
- ☰ **Live Transcript:** Side panel bilingual logs maintain full context throughout the conversation.

Meet Your Coach: Meeks

1. Warm Onboarding Coach

Meeks welcomes you in English, waves to get your attention, and guides you through document setup with encouraging prompts.

2. In-Call Bureaucrat Role

Meeks seamlessly transitions into official practice personas (like a Shibuya clinic receptionist) powered by real-time motion clips.

Technical Architecture

Layer	Tech Stack	Key Functionality
Frontend	React 19 + Vite + TypeScript + Tailwind	Ultra-fast, responsive UI with real-time speech event synchronization.
3D Engine	Perxona Connect Kit ()	Real-time 3D avatar rendering, lip-sync, and pre-recorded motion clips.
AI Brain	Gemma 4 MTP (OpenAI-compatible)	Document OCR grounding, simulation script & cheat sheet generation.
Data Search	SearXNG + Firecrawl API	Live web scraping of real municipal office procedures and FAQs.

Impact & Scalability

3.4M+

Foreign Residents in Japan

- 🎯 **High-Stakes Retention:** Administrative friction is a top driver of expat burnout and early departure from Japan.
- 🔄 **Multi-Vertical Expansion:** Architecture easily adapts to real estate rentals, bank account setup, and utility calls.
- 🏠 **B2B & Government Angle:** Turnkey onboarding tool for municipal support centers and corporate mobility teams.

Ready for the Real Call

Actionable Cheat Sheet

Post-call review compiles exact Japanese phrases, furigana, and responses for your desk.

- ✓ **If-Then Phrases:** Exact answers mapped out for expected official questions.
- 🖨️ **Print & Copy Ready:** Keep open on your screen while dialing the actual ward office.
- 📌 **Confidence Restored:** Turns terrifying phone calls into routine, predictable exchanges.
